School Swag

Cardboard Arcade

Last week, we held our annual cardboard arcade. Fifth grade students designed and created their own arcade games. For three days, classes are able to visit and play for prizes. We love seeing the student spending time designing, being creative, using cooperation skills, and giving back to the school community.

Here is where their inspiration came from:

Week at a Glance

Why play a game when you can create it?

Free summer STEM enrichment program for 6th - 8th graders

Every child deserves a chance to shape the world. But they don't always have the tools to do it.

That's why we've launched the Verizon Innovative Learning STEM Achievers program - an immersive program developed to ignite STEM passions through design thinking, 3D printing, augmented reality and social entrepreneurship.

 The program takes place over the course of one 4-week program. June 9 – July 3, 2025.

 CCBC: 1 Campus Drive, Monaca, PA 15061

For more information, please contact
Eva St. Surin - eva.stsurin@ccbc.edu

Program details

- The program will take place in person.
Registrants will be notified by the Program Director regarding acceptance and details of the program.
- Lunch will be provided.
- Inclusive of all genders.
- Free to all students from local middle schools.

Share this with a parent or student in your life.
